**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS**

**2.1 Basis of presentation**

**2.1.1 Statement of compliance**

The accompanying interim condensed financial statements are prepared in accordance with the Communiqué Serial II, No: 14.1, "Principals of Financial Reporting in Capital Markets" published in the Official Gazette numbered 28676 on 13 June 2013. According to the article 5 of the Communiqué, financial statements are prepared in accordance with Turkish Accounting Standards / Turkish Financial Reporting Standards ("TAS" / "TFRS") and its addendum and interpretations ("IFRIC") issued by the Public Oversight Accounting and Auditing Standards Authority ("POAASA") Turkish Accounting Standards Board.

Financial statements are presented in accordance with the formats determined in the "Announcement on TFRS Taxonomy" published by the POA on 4 October 2022 and in the Financial Statement Samples and User Guide published by the CMB.

The Company has prepared its condensed financial statements for the interim period ended March 31, 2024 in accordance with TAS 34 Interim Period Financial Reporting in accordance with the Financial Reporting Standard. The condensed interim financial statements do not include all the information required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at December 31, 2023.

The Company bases its accounting records and preparation of its legal financial statements on the Turkish Commercial Code ("TTK"), tax legislation and the Uniform Chart of Accounts issued by the Ministry of Finance of the Republic of Turkey. The financial statements have been prepared in Turkish Lira on the basis of historical cost, except for land, buildings and land improvements from the tangible assets group shown at their fair value, and financial assets and liabilities shown at their fair value.

Financial statements have been prepared by reflecting the necessary corrections and classifications in order to ensure accurate presentation in accordance with TFRS, on the legal records prepared on the historical cost basis.

**Financial reporting in high-inflation economies**

The Company has prepared its financial statements for the year dated 31 December 2023 and ending on the same date, by applying TMS 29 "Financial Reporting in High Inflation Economies" Standard, based on the announcement made by the KGK on 23 November 2023 and the "Implementation Guide on Financial Reporting in High Inflation Economies" published. In accordance with the said standard, financial statements prepared based on the currency of a hyperinflationary economy are prepared in the purchasing power of this currency at the balance sheet date, and comparative information is expressed in terms of the current measurement unit at the end of the reporting period for the purpose of comparison in the financial statements of the previous period. For this reason, the company has presented its financial statements as of 31 March 2023 and December 31, 2023, on the basis of purchasing power as of March 31, 2024.

In accordance with the CMB's decision dated 28 December 2023 and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards shall comply with the provisions of TMS 29, starting from their annual financial reports for the accounting periods ending as of 31 December 2023. It was decided to apply inflation accounting by applying.

Rearrangements made in accordance with TMS 29 were made using the correction coefficient obtained from the Consumer Price Index in Turkey ("CPI") published by the Turkish Statistical Institute ("TURKSTAT"). As of March 31, 2024, the indices and correction coefficients used in the correction of financial statements are as follows:

<b>Date</b>	<b>Index</b>	<b>Correction Coefficient</b>	<b>Three-Year Compound Inflation Rate</b>
31 March 2024	2.139,47	1,00000	211%
31 December 2023	1.859,38	1,15064	268%
31 March 2023	1.269,75	1,68495	152%

(Amounts expressed in thousands of Turkish Lira ("TL") in terms of the purchasing power of TL as of 31 March 2024 unless otherwise stated.)

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**2.1 Basis of presentation (Cont'd)**

**2.1.1 Statement of compliance (Cont'd)**

The main elements of the Company's adjustment for financial reporting purposes in high-inflation economies are as follows:

- Current period financial statements prepared in TL are expressed in purchasing power at the balance sheet date, and amounts from previous reporting periods are also expressed by adjusting according to the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not adjusted as they are currently expressed in current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TMS 36 and TMS 2 were applied, respectively.
- Non-monetary assets and liabilities and equity items that are not expressed in current purchasing power at the balance sheet date have been adjusted using the relevant adjustment coefficients.
- All items included in the statement of comprehensive income, except for non-monetary items in the balance sheet that have an impact on the statement of comprehensive income, are indexed with coefficients calculated over the periods in which the income and expense accounts are first reflected in the financial statements.
- The effect of inflation on the Company's net monetary asset position in the current period is recorded in the net monetary position gains/(losses) account in the income statement.

The Company measures its lands, land improvements and buildings at fair value by way of revaluation policy. As part of transition provisions in IAS 29 associated revaluation funds recognised under equity was reclassified to the retained earnings as of 1 January 2022.

**2.2 Comparative information and restatement of prior period financial statements**

Financial statements of the Company have been prepared comparatively with the preceding financial period, in order to enable determination of trends in financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the financial statements.

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**2.2 Comparative information and restatement of prior period financial statements (Cont'd)**

Comparative figures for the previous reporting period are restated by applying the general price index so that the comparative financial statements are presented in the currency in effect at the end of the reporting period. Information disclosed for previous periods is also expressed in the currency valid at the end of the reporting period.

**2.3 Restatement and errors in the accounting estimates**

Major changes in accounting policies are applied retrospectively and any major accounting errors that have been detected are corrected and the financial statements of the previous period are restated. Changes in accounting policies resulting from the initial implementation of a new standard, if any, are implemented retrospectively or prospectively in accordance with the transition provisions. If changes in accounting estimates are related to only one period, they are recognized in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

**2.4. Amendments in Turkey Financial Reporting Standards**

The accounting policies used in the preparation of financial statements for the accounting period ending 31 March 2024 are consistent with those used in the previous year, except for the new and amended Turkish Accounting Standards ("TMS")/IFRS and TMS/IFRS interpretations valid as of 1 January 2024, summarized below. has been implemented. The effects of these standards and interpretations on the financial position and performance of the Company are explained in the relevant paragraphs.

**a) Standards, amendments, and interpretations applicable as of 31 March 2024:**

**Amendment to IFRS 16 – Leases on sale and leaseback;** effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

**Amendment to IAS 1 – Non current liabilities with covenants;** It is valid for annual reporting periods beginning on or after 1 January 2024. These changes clarify how the requirements that an entity must comply with within twelve months after the reporting period affect the classification of a liability. The changes also aim to improve the information the entity provides regarding obligations subject to these conditions.

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**Amendments to IAS 7 and IFRS 7 on Supplier finance arrangements;** effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis.

**IFRS S1, 'General requirements for disclosure of sustainability-related financial information;** effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity's value chain.

**IFRS S2, 'Climate-related disclosures';** effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

**b) Standards, amendments, and interpretations that are issued but not effective as of 31 March 2024:**

**IFRS 17, 'Insurance contracts';** effective from annual periods beginning on or after January 1, 2023. This standard replaces TFRS 4, which currently permits a wide range of applications. IFRS 17 will fundamentally change the accounting for all entities that issue insurance contracts and investment contracts with discretionary participation features.

**IAS 21 Lack of convertibility;** effective from annual periods beginning on or after January 1, 2025. An entity is affected when it has a transaction or activity in a foreign currency that is not convertible into another currency at a particular measurement date for a particular purpose. A currency can be exchanged when the ability to obtain another currency is available (with a normal administrative delay) and the transaction occurs through a market or clearing mechanism that creates enforceable rights and obligations.

**2.5. Summary of significant accounting policies**

Summary financial statements for the interim period ending on March 31, 2024 have been prepared in accordance with the TMS 34 standard for the preparation of interim financial statements. The significant accounting policies used in preparing the summary financial statements are consistent with the accounting policies explained in detail in the financial statements dated 31 December 2023. Therefore, interim financial statements should be evaluated together with the financial statements for the year ending December 31, 2023.

**NOTE 3 - SEGMENT REPORTING**

Operating segments are identified on the same basis as financial information is reported internally to the Company's chief operating decision maker. The Company's Board of Directors has been identified as the Company's chief operating decision maker who is responsible for allocating resources between segments and assessing their performances. The Company management determines operating segments by reference to the reports reviewed by the Board of Directors to make strategic decisions.

The Management believes that the Company operates in a single industry sector as the risks and returns for the activities do not show any material difference because the scope of activity covers only the production of white goods and the production processes and classes of customers are similar. As a result all information related to the industrial segment has been fully presented in the attached financial statements.

The Management has decided to use geographical segments for segment reporting considering the fact that risks and returns are affected by the differences in geographical regions.

**Geographical segments**

<b>Segment revenue</b>	<b>1 January - 31 March 2024</b>	<b>1 January - 31 March 2023</b>

**NOTE 16-EMPLOYEE BENEFITS (Cont'd)**

Under Turkish law, the Company is required to pay employment termination benefits to each employee whose employment is terminated without due cause. In addition, under the existing Social Security Law No. 506, clause No. 60, amended by the Labor Laws dated 6 March 1981, No. 2422 and 25 August 1999, No. 4447, the Company is also required to pay termination benefits to each employee who has earned the right to retire by receiving termination indemnities.

The amount payable is the equivalent of one month's gross salary for each year of service and is limited to a maximum of TL 35.058,58 / year as of 31 March 2024 (31 December 2023: TL 23.489,83/year - at 31 December 2023 purchasing power). The provision for employee termination benefits is not funded.

The provision is calculated by estimating the present value of the future obligation of the company arising from retirement of employees. Turkish Accounting Standards No: 19 ("Employee Benefits") requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined employee plans. Accordingly actuarial assumptions were used in the calculation of the total liability which is described below:

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. An expected inflation rate and appropriate discount rate should both be determined, the net of these being real discount rate. Consequently in the accompanying financial statements as at 31 March 2024 the provision is calculated by estimating the present value of the future obligation of the company arising from retirement of employees. As of 31 March 2024 provision is calculated based on real discount rate of 3,72% assuming 23,60% annual inflation rate and 49,25% discount rate. (31 December 2023: 23,60% inflation rate, 49,25% real discount rate, 3,72% discount rate)

The main assumption is that the seniority ceiling for each year of service increases in line with inflation. Thus, the discount rate applied represents the actual rate adjusted for the expected effects of inflation. The maximum liability is revised every six months, the maximum amount of TL 35.058,58 effective from 1 January 2024 has been taken into consideration in the calculation of provision for employment termination benefits as of 31 December 2023 and 31 March 2024.

**d) Dividend distribution**

For quoted companies dividends are distributed in accordance with the Communiqué Serial II -19.1 on "Principals Regarding Distribution of Interim Dividends" issued by the CMB effective from 1 February 2014. Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and in conformity with relevant legislations. The communiqué does not state a minimum dividend rate.

Companies distribute dividends in accordance with the method defined in their dividend policy or articles of association. Additionally, dividend can be distributed in fixed or variable installments and dividend advances can be paid over the profit on interim financial statements.

Unless the general reserves that has to be appropriated in accordance with TCC or the dividend to shareholders as determined in the articles of association or dividend policy are set aside; no decision can be taken to set aside other reserves, to transfer reserves to the subsequent year or to distribute dividends to holders of redeemed shares right certificates, to board of directors members or to employees; and no dividend can be distributed to those unless the determined dividend to shareholders is paid in cash.

On the other hand, in accordance with the Articles of Association of the Company, up to 5% of retained earnings after dividend distribution could be allocated to the Board of Directors or used for certain reasons designated by the Board of Directors when necessary.

- Based on the approval of the General Assembly, up to 3% of retained earnings after dividend distribution could be allocated to plant investments designated in accordance with article of 468 in TCC,
- Up to 5% of retained earnings after dividend distribution could be allocated to the Board of Directors as necessary, up to 5% of retained earnings after dividend distribution could be allocated to donations, bonuses etc.

Pursuant to paragraph 1 of Article 6 of the Corporate Tax Law No. 5520, corporate tax is calculated on the net corporate income of the taxpayers for an accounting period.

Pursuant to paragraph 2 of the same article, by taking into account the provisions of Income Tax Law No. 193 on commercial income, pure corporate income is calculated by adding legally unacceptable expenses to the commercial income and deducting the exempt earnings and discounts from the commercial income.

With the amendment made to Article 32 of the Corporate Tax Law No. 5520 with Article 21 of the Law No. 7456, corporate taxpayers other than banks, companies within the scope of the Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies are subject to corporate tax at the rate of 25% on their net corporate earnings in 2024 and the following taxation periods. For banks, companies within the scope of Law No.

The above-mentioned amendment regarding the corporate tax rate will take effect starting from the declarations to be submitted on October 1, 2023. For the declarations submitted before this date, the corporate tax rate is 20%.

In addition to the corporate tax levied on corporate income, withholding income/corporate tax burden may arise if all or part of the profits of corporations are subject to profit distribution. By full taxpayer corporations;

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

- Full taxpayer real persons,
- For non-income and corporate taxpayers,
- For those exempt from income tax,
- Limited taxpayer real persons,
- Limited taxpayers exempt from income tax,
- Institutions exempt from corporate tax,
- To limited taxpayer corporations or limited taxpayers exempt from corporate tax, except for those who obtain dividends through a place of business or permanent representative in Turkey,

In case of dividend distribution, 10% withholding income/corporate tax is payable. According to the Turkish tax legislation, capitalization of profit is not considered as dividend distribution.

Corporations are required to calculate advance tax on their quarterly earnings for the first 3 months of their accounting periods in accordance with the principles set out in the Income Tax Law No. 193 and at the corporate tax rate and declare it until the 17th day of the second month following that period and pay it until the evening of the 17th day.

Advance tax paid during the year belongs to that year and is deducted from the corporate tax to be calculated on the corporate tax return to be submitted in the following year.

Corporations are exempt from corporate tax on 75% of the gains arising from the sale of participation shares included in their assets for at least two full years and 25% of the gains arising from the sale of immovables included in their assets on July 15, 2023 for the same period.

As of July 15, 2023, corporate tax exemption is not applied to the gains arising from the sale of immovables taken into assets.

Under Turkish tax legislation, tax losses carried forward can be carried forward to offset against future taxable income for up to 5 years. However, tax losses cannot be offset against retained earnings.

In Turkey, there is no such practice as reconciliation with the tax authority on taxes payable. Corporate tax returns are required to be filed with the tax office by the 30th of the fourth month following the close of the accounting period and corporate tax is payable within the same period.

However, tax authorities may examine the accounting records within five years and the amount of tax payable may change if incorrect transactions are detected.

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

Earnings from the Company's investments subject to incentive certificates are subject to corporate tax at reduced rates from the accounting period in which the investment starts to be operated partially or completely until the investment contribution amount is reached.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Where it is probable that taxable income will be available, deferred tax assets are recognized in respect of deductible temporary differences, tax losses and tax advantages arising from investment incentives with indefinite useful lives that allow for the payment of reduced corporate income tax.

For the periods 31 March 2024 and 31 December 2023, tax expenses recognized in the statement of comprehensive income are as follows;

	<b>31 March 2024</b>	<b>31 March 2023</b>

			<b>(1.917.882)</b>	<b>(1.892.525)</b>

The Company's earnings from investments subject to incentive certificates are subject to corporate tax at reduced rates from the accounting period in which the investment starts to be operated partially or fully until the investment contribution amount is reached.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Where it is probable that taxable income will be available, deferred tax assets are recognized for deductible temporary differences, tax losses and investment incentives with indefinite useful lives that allow for the payment of reduced corporate income tax.

Furthermore, financial statements consist of the deferred tax effect of the temporary differences accounted by the adjustments made regarding inflation accounting together with the notification of the Corporate Tax Law dated 30 December 2023 and numbered 32415.

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

**Deferred tax assets and liabilities (Cont'd)**

As of March 31, 2024, the tax advantage amounting to TL 741.782 that the Company will benefit from in the foreseeable future is reflected in the financial statements as deferred tax asset. In line with the precautionary principle of accounting and in line with the budget made by the Company, the tax advantage arising from the investment incentives that the Company expects to benefit from in the coming year has been recognized as deferred tax asset in the financial statements.

However, the tax advantage amounting to TL 4.405.304 that the Company is entitled to use has not been recognized in deferred tax assets in accordance with the precautionary principle of accounting.

Total tax advantage arising from investment incentive certificate used in the current period is TL 29.522.

The Company assesses the recoverability of deferred tax assets related to investment incentives based on business models that include estimates of taxable profit. These business models include forward-looking management estimates such as sales volumes, selling prices and exchange rate expectations. As a result of the sensitivity analyses on the forward-looking use of investment incentives, it has been concluded that a 10% increase/decrease in the related estimates has no impact on the recoverability of the related deferred tax assets.

The movement of net deferred tax assets and liabilities is as follows:

**NOTE 27 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT**

**Foreign currency risk:**

The Company is exposed to exchange rate risk due to its foreign currency denominated transactions. The main principle of foreign currency risk management is to maintain foreign exchange position at the level that minimizes the impact of foreign exchange fluctuations.

Derivative instruments are used in foreign currency risk management where necessary. In this respect the Company mainly prefers using foreign exchange forward contracts.
